

Call for Projects PhDs' Mobility Program

opening on 08 November 2021

23rd Call for projects PhDs' Mobility Program, International opening of doctoral training

The mission of the Lille Nord de France Doctoral College is to provide professional support for doctoral students. It is a platform for consultation and coordination between doctoral schools. The 7 doctoral schools entrust it with the operational implementation of shared actions that complement their missions:

- 1) Strengthening the interdisciplinarity and internationalisation of doctoral training;
- 2) Preparing doctoral students for their future careers by working to create bridges between the academic world and other socio-economic players
- 3) To promote the doctorate and PhDs in civil society, through promotional actions and the setting up of events with the socio-economic world.

The Lille Nord de France Doctoral College wishes to contribute to the internationalisation of doctoral training by participating in the financing of outgoing mobility projects. The Collège Doctoral Lille Nord de France's call for projects entitled **PhDs' Mobility Program, International Opening of Doctoral Training, is published once a year.**

Eligibility criteria for application

- This call is addressed to all doctoral students enrolled in one of the 7 doctoral schools run by the University of Lille, IMT Nord Europe or Central Lille Institut.
- PhD candidates will conduct their mobility **between January 1st and October 15th, 2022 (the candidate must be back at this date)**
- The content and relevance of the mobility: the project should explain how mobility will contribute to complement the doctoral training of the doctoral student
- The funding of the doctoral college is not intended to replace the normal funding of the thesis.
- Mobility must be for a minimum of **1 month and up to 6 months maximum**.
- A precise budget is requested, detailing travel, accommodation and subsistence costs. Co-financing of the mobility project is an important element in the allocation of support. Please note: the self-financing of doctoral students is not taken into account when calculating the budget.
- The request is not exclusive of other aids.
- Mobility exclusively for travel from France to abroad

Are not eligible:

- Travel to the laboratory partner as part of a joint supervision / co-supervision of a thesis, travel for conferences / meetings / summer schools.
- Doctoral students enrolled in the 5th year and beyond for 2021-2022 are not eligible.
- Applications for mobility outside the dates mentioned above.

Amount and procedure

The maximum amount of support is capped at **€2,500 per mobility project**. The allocated amount takes into account the destination and duration of the mobility.

The doctoral student's home laboratory will advance the costs. The funding is then paid to the doctoral student's laboratory at the end of the mission, on the basis of a scientific and financial report which must be sent to the doctoral college on the doctoral student's return. This report is a compulsory condition for the payment of aid to the laboratory.

Calendar and selection process

Deadline for submitting applications: online submission before December 06, 2021 at 5 p.m.

- November 08, 2021: launch of the call
- December 06, 2021: Deadline for registration of the application and submission of the completed and signed files to <https://framaforms.org/aap-phds-mobility-2022-1608289249>
- The doctoral schools send a ranking of applications to the doctoral college by December 13, 2021 at the latest.
- December 16, 2021: meeting of the selection committee
- December 22, 2021: notification of the attributions by the Doctoral College
- From January 1st to October 15th, 2022: implementation of the mobilities

Any incomplete form or received after the closing date for registrations will not be taken into account
